

Cocker Spaniel

Examine on table

Height Dogs ideal 15” Bitches ideal 14”

General Appearance - Sturdy, compact body, over all dog in complete balance, slightly off-square with slightly sloping topline. Capable of considerable speed combined with great endurance. Merry temperament.

Head - Skull - Well proportioned, rounded, but not exaggerated. **Eyes** - Slightly almond shaped eye rims, eyeball is round, full, directed forward. Color darker the better. Alert, soft, appealing expression. **Muzzle** - Broad, deep with square even jaws. **Bite** - Scissor bite. **Nose** - Well developed nostrils, color harmonizes with eye rim color. **Ears** - Lobular, long, fine leather and well feathered, set on no higher than lower part of the eye.

Body - Neck- Sufficiently long to allow nose to reach ground easily and muscular. Chest deep with well sprung ribs. **Back** - Strong, sloping slightly to tail set on. **Tail** - Docked, carried on line with topline or slightly higher, never straight up Terrier like. When in motion, tail action is merry. Well rounded, muscular hindquarters.

Coat - Texture important Short and fine on head, medium length on body. Undercoat, silky, flat or slightly wavy. Well feathered.

Color. Three varieties.

- 1.Black or black with tan point
- 2.ASCOB - Lightest cream to darkest red, also brown and brown with tan points.
- 3.Parti-color. Two or more solid, well broken colors. One must be white, the other any of the above colors. Roans are parti-colors,
- 4.Tan points - Lightest cream to darkest red. Locations required in Blacks and ASCOBs- over eyes- side of muzzle and on checks- underside of ears - feet and/or legs -under tail - optional on chest
